FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Economic Development (DED)** state this proposal creates a St. Louis Riverfront Commission to study economic development in the area. The DED assumes the proposal will not fiscally impact their agency.

Officials from the **Office of Administration (OA)** assume the Commission will meet in St. Louis, and therefore, will not incur travel or lodging expenses for any of the members. The OA also assumes the General Assembly may appropriate funds for basic meeting and administrative expenses. Meal and meeting expense for five Commission members for an estimated four meetings per year are assumed to total \$3,000 per year.

Officials from the **City of St. Louis** assume they will not be fiscally impacted by this proposal.

Oversight assumes only three meetings will occur in FY 2001, therefore, the meeting and administrative expenses would be lower.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal establishes the St. Louis Riverfront Commission. The Commission will examine the state of economic development on the riverfront in the City of St. Louis.

The Commission will consist of 5 members: one member from the Missouri House of Representatives, appointed by the Governor from a list of 3 names submitted by the Speaker of the House of Representatives; one member from the Missouri Senate, appointed by the Governor from a list of 3 names submitted by the President Pro Tem of the Senate; one member appointed by the Governor who represents the interests of the public in successful economic development; and 2 members who are residents of the City of St. Louis, appointed by the Governor from separate lists of 3 names submitted by the Mayor of the City of St. Louis.

The Commission is required to submit annual recommendations no later than the first Wednesday in January of each year to the General Assembly and the Governor concerning potential strategies for improving economic development on the riverfront.

The proposal also specifies the selection of the Commission chair; the meeting schedule of the Commission; and the terms of service for Commission members, including a beginning date of January 1, 2001. Commissions members can be reimbursed from general revenue for actual and necessary expenses in the performance of their duties.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
